

## **NEWS RELEASE**

CSE: CTTT | OTCQB: CITLF | FRA: X9V

# CRITICAL INFRASTRUCTURE TECHNOLOGIES LTD. SELECTED TO JOIN TEAM DEFENCE AUSTRALIA DELEGATION FOR AUSA 2025 IN WASHINGTON, D.C.

Vancouver, BC - October 8, 2025 - Critical Infrastructure Technologies Ltd. (CSE: CTTT) (OTC: CITLF) (FRA: X9V) ("CiTech" or the "Company"), a leading developer of autonomous, high-capacity mobile communications and security platforms, is pleased to announce that it has been selected as a Rover within the Team Defence Australia (TDA) industry delegation for the Association of the United States Army (AUSA) Annual Meeting and Exposition 2025, to be held 13–15 October 2025 at the Walter E. Washington Convention Center, Washington, D.C., USA.

The AUSA Annual Meeting and Exposition is one of the world's largest land warfare events, bringing together global defence leaders, government representatives, and industry innovators to showcase next-generation technologies, systems, and capabilities.

Participation as part of the Team Defence Australia delegation provides CiTech with a platform to engage with international defence stakeholders, strengthen relationships with global partners, and highlight its Nexus platform and integrated technologies that support mission-critical communications, mobility, and situational awareness.

"We are honoured to represent Australia's defence industry at AUSA 2025 alongside Team Defence Australia," said Brenton Scott, CEO, CiTech. "This opportunity allows us to showcase our Nexus platform to a global audience and continue expanding our international partnerships focused on innovation, capability enhancement, and allied collaboration."

AUSA 2025 will host over 30,000 participants, including senior military officials, international delegations, and key defence contractors. CiTech's involvement reinforces its commitment to advancing sovereign capability and promoting Australian innovation on the global stage.

#### On Behalf of the Board of Directors:

### **About Critical Infrastructure Technologies Ltd.**

Listed on the CSE with operations in Perth, Western Australia, CiTech is creating autonomous, high capacity, rapidly deployable technology that delivers essential services to where they are needed most. CiTech is targeting the mining, defence, border security/surveillance and emergency services sectors in relation to its first product release, the Nexus 16, which aims to provide critical mobile telecommunications for such sectors. Using patented technologies, CiTech's self-deploying platform (SDP) provides a solution for two of the greatest limitations of current rapidly deployable communication solutions, strength of the tower and ability to rapidly self-deploy and operate, in numerous situations. The SDP is designed to support radio equipment including LTE (Long Term Evolution) and several other technological payloads, such as surveillance and anti-drone systems. CiTech has completed the research and development phase and is currently commercialising the first of many products that will be released. #### FORWARD-LOOKING INFORMATION

This news release contains "forward-looking information" and "forward-looking statements" (collectively, "forward-looking information") within the meaning of applicable securities laws. Forward-looking information is generally identifiable by use of the words "believes," "may," "plans," "will," "anticipates," "intends," "could", "estimates", "expects", "forecasts", "projects" and similar expressions, and the negative of such expressions. Forward-looking information in this news release.

Forward-looking information is subject to known and unknown risks, uncertainties and other factors that may cause the Company's actual results, level of activity, performance or achievements to be materially different from those expressed or implied by such forward-looking information. Forward-looking information is based on the reasonable assumptions, estimates, analysis and opinions of management made in light of its experience and perception of trends, current conditions and expected developments, and other factors that management believes are relevant and reasonable in the circumstances at the date such statements are made. Although the Company has attempted to identify important factors that could cause actual results to differ materially from those contained in forward-looking information, there may be other factors that cause results not to be as anticipated. There can be no assurance that such information will prove to be accurate, as actual results and future events could differ materially from those anticipated in such information. All forward-looking information herein is qualified in its entirety by this cautionary statement, and the Company disclaims any obligation to revise or update any such forward-looking information or to publicly announce the result of any revisions to any of the forward-looking information contained herein to reflect future results, events or developments, except as required by law.
